Electrical engineers work in a wide variety of areas in industrial and commercial companies, on construction sites and in private households. They plan, assemble, install, maintain and repair electrical and electronic devices and systems. This includes lighting and illumination systems, electrical appliances, building automation, systems for power generation, transmission and distribution, production systems and production lines, etc. They search for faults and malfunctions in electrotechnical systems, rectify them and pay close attention to compliance with safety regulations and environmental standards in all their work.

Your strengths:

- A precise and conscientious approach to work
- Positive completion of compulsory schooling
- Manual skills
- Team player

Apprenticeship period: 3.5 years

Apprentice remuneration:

1. Apprenticeship year: € 1,000 gross per month, 2nd year: € 1,182.65 gross per month, 3rd year: € 1,546.13 gross per month, 4th year: € 2,028.95 gross per month
