Your tasks:

- Responsible for incoming goods, warehouse, internal logistics, shipping and packaging
- Responsibility for stock levels and annual inventory
- Optimising and ensuring ideal production supply and warehousing
- Organisational development through competence building in the area of logistics
- Cooperation with all interfaces in daily business (purchasing, AV, production, ...)
- Application and implementation of lean management methods in the area of logistics
- Manage all internal logistics processes with the aim of increasing effectiveness and reducing operating costs
- Strategic development of the logistics department, optimisation of logistics processes and material flow, implementation of new solutions
- Evaluation of logistical KPI (Key Performance Indicator)
- Responsible for the further development and handling of all logistical processes as an interface in the plant network between Austria and Czech Republic

Your profile:

- Completed education (Matura, foreman, studies) ideally in the field of logistics
- In-depth know-how regarding logistics & warehouse in a production company
- Proactive and independent way of working
- Communication and assertiveness skills and team player
- Entrepreneurial and analytical mindset
- fact-based approach as well as high target and solution orientation
- Good MS Office skills, experience in working with ERP systems (SAGE) an advantage.
- Good written and spoken English skills (knowledge of German is an advantage)

It's waiting for you:

- An interesting working environment in a motivated team
- State-of-the-art work equipment
- development opportunities in an industrial company with all the advantages of a family business
